

Howdy y'all!

As you know, in geography we have been going on a road trip around some of the states in the USA. However, they have been whistle-stop tours considering the size of them and the variety of things there are to do in each state!

As a result, for your creative project this half term, we would like you to create a travel guide for a state of your choice. You may choose from any of the fifty states and may present your work on a computer, by hand or by a combination of the two - the choice is yours!

You may want to look at some examples of travel guides first - make sure that you bring in any that you look at as this will show the journey you went through on your project.

For your state, think about:

- What the major cities are.
- What the landscape is like - does it change according to where you are?
- What your state is famous for.
- What there is to do in your state.

Think carefully about how you will make your guide visually interesting as well as informative!

We look forward to hearing and learning about the states that you choose!
