

Autumn 2018 Year 1 'Dungeons and Dragons'

Most of our Literacy work this term will be based on dragons. Our story writing will be linked to 'George and the Dragon', and our instruction writing will cover 'how to make dragon slime'. We will also learn poems linked to witches and spells and explore non-fiction texts based on Komodo Dragons.

As Historians, we will learn about castles and how/why they were built and used. As part of our work on famous people and events from the past in Britain, we will also study Guy Fawkes and discuss why he is well known.

As Geographers this term, we will be looking at simple maps and identifying where we live and areas we know as well as learning about our class countries Australia and Madagascar.

As Scientists, we will be investigating different materials, naming them, looking at where they come from and how they are used.

In Design Technology, we will be learning about levers and structures. Our 'structure' work will be based on castle building and our 'lever' work will be taught through the use of catapults and how they move.

In ICT, we will work on how to log on and off a PC independently. We will be taking opportunities to work on paint and word processing programs.
